Healthcare, general manufacturing and services sectors see most loans added to non-accrual status in 3Q24

LSEG | December 4, 2024

A total of US$980m of BDC loans were added to non-accrual status in 3Q24, down from US$2.1bn in the prior quarter. Given this decline and the growth in market size, the weighted average non-accrual rate for public and private BDCs combined ticked down to 1.43% in 3Q24 from 1.70% in 2Q24. The sectors which saw the most loans placed on non-accrual status in 3Q24 was healthcare (US$223m), general manufacturing (US$139m) and services (US$138m).
